Wow!

Check out that chrome! Dig those crazy colors! Cast a glance at those smooooth lines!

Northstar appliances will transform your kitchen – your whole home – to a different look, different mood, different time.

But don't expect anything less than top-end twenty-first century tech on the inside. Northstar appliances are loaded with all the features and options you're looking for!

Now that's Wow!

The Range

Hot stuff in the kitchen!

Form plus Function

Don't let Northstar's pretty looks fool you—these ranges mean serious culinary business.

Northstar™ ranges are loaded with the features you're looking for.

- Full-size self-cleaning oven (convection optional)
- Optional warming drawer
- Electric radiant elements or sealed gas burners
- High-power "SuperBurners"
- Programmable bake/clean
- Dual halogen oven lights

Grandma never had it so good!

Electronic clock/controls

Touch the controls and a digital LED clock appears, allowing you to set the dial clock and program the timer, delayed bake and delayed self-clean functions. Five seconds after programming/function completion, the LED display vanishes.

Robin's Egg Blue Candy Red White

Sealed gas burners

Pilotless sealed burners are rated at 8,000, 12,000 and 15,000 BTU's (based on natural gas). Adjust simmer settings as low as 450 BTU's. Safety auto-spark ensures constant heat and re-ignition, even at the lowest setting.

High-speed radiant electric elements

High-speed infinite-control elements under a ceramic top provide quick, uniform heat, precise cooking and easy clean-up. Heat to the elements is automatically reduced in the event of a boil-over.

Warmer

(available option on electric and dual fuel ranges)

Located under the oven, Northstar's big 2.0 cu. ft. warmer is ideal for warming plates and desserts, or keeping food hot while the last few items are cooking. (Becomes pot storage drawer when warmer option not chosen)

Self-cleaning oven

(Shown with 25 lb. turkey)

A 4.3 cu. ft. oven (4.0 cu. ft. on gas and convection models) offers the space and capacity you need. Convenient self-cleaning feature (with delayed start) is standard. Dual halogen lights with over-ride let you see what's cooking with the door open or closed.

Convection option

Northstar True Convection ovens have a third heating element surrounding the convection fan. Hot air circulates evenly providing speed and consistent professional results.

Just your style!

Suit your decorating and cooking style. Choose from nine cool—or hot!—Northstar™ retro colors. Then pick the options and professional features that match your lifestyle and culinary needs.

The Range Hood

Match your range with a professional-quality Northstar range hood.

Great features, including a four-speed (500, 640, 720 & 800 cfm.) outside-vented fan, and dual 20 Watt halogen lights. Available in the same nine cool colors as Northstar ranges and refrigerators.

Dimensions: 30"W X 22"D X 6"H

Robin's Egg Blue Mint Green

The Fridge

Cool baby!

Kitchen, bar, workshop or pool cabana… a Northstar™ refrigerator is the coolest appliance you'll ever own. Eighteen BIG cubic feet of storage—13.4 cu. ft. in the fridge and 4.6 cu. ft. in the freezer. Visi-shelving™ for quick, easy access, and adjustable door bins to maximize storage. Add Northstar's optional icemaker for ice on demand.

Great looking… and efficient too! Northstar refrigerators are Energy Star™ rated for energy efficiency.

Retro styling, today's capacity and convenience!

Black | Flamingo Pink | Quicksilver | White | Buttercup Yellow | Bisque

Adjustable door bins

Four big gallon-size door bins keep items up-front and handy for quick access. Fully adjustable to maximize space utilization.

Visi-shelving

High visibility shelving with slide-out access allows you to see, and reach, everything easily—even normally hard-to-reach items at the back!
